SUMMARY

UI/UX Developer with experience designing and building intuitive, user-centered web, mobile and SaaS applications. Skilled in translating business requirements into seamless user experiences, creating scalable design systems, and collaborating closely with product managers and developers to deliver high-quality digital products.

EDUCATION

Bachelor of Computer and Information   2016 - 2020
Egyptian Academy of Computers, Information and Technology Management, Tanta University.

WORK EXPERIENCE

UI/UX Developer   2022 - PRESENT
Webalo

- Collaborate with product managers, engineers, and customer support teams to translate business requirements into scalable web and mobile design solutions.
- Conduct research on design best practices to enhance user experience and inform design decisions.
- Design and validate mockups and prototypes using Figma, Figma Make, and other tools, collaborating with stakeholders and incorporating feedback to refine features.
- Improve usability and functionality of the web and mobile applications used by large organizations.
- Implement new designs in coordination with the engineering team and supported developer handoff using Figma Inspect.
- Resolve bugs and design inconsistencies reported by the QA team to ensure high-quality releases.
- Participate in regular design standups and coordinated with international teams across multiple time zones.
- Manage new feature requests and design modifications, maintaining consistency with the design system.
- Built Webalo dark theme from scratch for a seamless user experience.

UI/UX Developer   2020 - 2022
Freelance

- Delivered UI/UX solutions for web and mobile applications for startups.
- Conducted user research, competitor analysis, and usability reviews.
- Designed responsive user interfaces and interactive prototypes.
